# Contents of Volume 146

**Research Articles**

D. Bouchon (France)
Biological clock in seasonal reproductive cycle in the ditch shrimp *Palaemonetes varians* Leach. I. Photoperiodic time measurement 1

D. Bouchon (France)
Biological clock in seasonal reproductive cycle in the ditch shrimp *Palaemonetes varians* Leach. II. Ovarian state-dependent response to non-diel light–dark cycles 13

D.H. Wilber and T.P. Wilber, Jr. (British West Indies)
Environmental influences on the growth and survival of West Indian spider crabs *Mithrax spinosissimus* (Lamarck) in culture 27

N.M. Holbrook, M.W. Denny and M.A.R. Koehl (USA)
Intertidal "trees": consequences of aggregation on the mechanical and photosynthetic properties of sea-palms *Postelsia palmaeformis* Ruprecht 39

B.A. Menge (USA)
Relative importance of recruitment and other causes of variation in rocky intertidal community structure 69

B.J. Barber, S.E. Ford and D.T.J. Littlewood (USA)
A physiological comparison of resistant and susceptible oysters *Crassostrea virginica* (Gmelin) exposed to the endoparasite *Haplosporidium nelsoni* (Haskin, Stauber & Mackin) 101

M.H. Carr (USA)
Habitat selection and recruitment of an assemblage of temperate zone reef fishes 113

M.R. Landry, J.M. Lehner-Fournier, J.A. Sundstrom, V.L. Fagerness and K.E. Selph (USA)
Discrimination between living and heat-killed prey by a marine zooflagellate, *Paraphysomonas vestita* (Stokes) 139

S. Nicol, M. Stolp and G.W. Hosie (Australia)
Accumulation of fluorescent age pigments in a laboratory population of Antarctic krill *Euphausia superba* Dana 153

A.M.C. De Ruyck, A. McLachlan and T.E. Donn, Jr. (South Africa)
The activity of three intertidal sand beach isopods (Flabellifera:Cirolanidae) 163

A. Corzo and F.X. Niell (Spain)
Determination of nitrate reductase activity in *Ulva rigida* C. Agardh by the in situ method 181

M.S. Foster, C. Harrold and D.D. Hardin (USA)
Point vs. photo quadrat estimates of the cover of sessile marine organisms 193

O. Mokady, D.B. Bonar, G. Arazi and Y. Loya (Israel, USA)
Coral host specificity in settlement and metamorphosis of the date mussel *Lithophaga lessepsiana* (Vaillant, 1865) 205

N. Revelante and M. Gilmartin (USA)
The phytoplankton composition and population enrichment in gelatinous "macroaggregates" in the northern Adriatic during the summer of 1989 217

E.E. DeMartini (USA)
Spawning success of the male plainfin midshipman. II. Substratum as a limiting spatial resource 235

S.C. Pennings (USA)
Spatial and temporal variation in recruitment of *Aplysia californica* Cooper: patterns, mechanisms and consequences 253
